

\*\* BRAZIL. 11780, June 5 at 0154 into Lima remote, RNA/RNB going from token English to Spanish, part 3 of the interview with someone in Belém, Pará. It seems this is being repeated over and over (Glenn Hauser, OK, WOR)

\*\* BRAZIL. 11780, UT Tue June 10 at 0150 tune-in, RNA/RNB already in Spanish instead of token English, voice-over translation for Portuguese about climate change, S9+25/30 direct. 0153 Spanish outro and into another unID! language with some PP elements, native? 0157 Portuguese s/off announcement, but follows with vamp music 0158, 0200 full RNB IDs for FM in Rio, 980, 6180, 11780 in Brasília, music still going past 0203. So, was there English segment earlier circa 0145? (Glenn Hauser, OK, WOR)

\*\* BRAZIL. 11780, June 11 from 0140, I'm monitoring RNA/RNB via various ZY, OA remotes, one of which times out in only 5 minutes; the best signal from this or 6180 are not into the `local` `Brasila` one. Because last night there was no token English at 0150, rather Spanish and then some native language. But tonight hyper Brasuguese keeps going past 0150 and 0200, I guess some stupid ballgame. So maybe tomorrow night (Glenn Hauser, OK, WOR)

\*\* CANADA. 15034 USB, June 6 at 1448, CHR, Trenton Military is back! Only S5. After absence for almost two months, first noted missing on April 8. Since then I have checked at least once every day in routine bandscans, and occasionally night frequency 6754 USB. Both Aviation Weather and Terminal Forecasts from the usual airports. ID at 1451 and ``time, 1450 zulu`` -- only one minute off. Listened for a couple minutes and did not hear any ``no report received``s, tho that would be routine for at least a few cases. Just in time as the only other Canadian VOLMET, Gander is closing permanently June 12 at 0901\*. However, 15034 USB not audible at 2211, nor on 6754 USB, nor either into Maryland SDR at 2302. But at 2349, 6754 USB is on and VG into Maryland. I was going to look up sked info in EiBi but both had already been deleted (Glenn Hauser, OK, WOR)

\*\* CANADA. 15034 USB, June 8 at 1540, Trenton Military is missing again, no signal direct nor into Maryland SDR. Still missing at 1913, 1945 (Glenn Hauser, OK, WOR)

\*\* CANADA. 6754 USB, June 9 at 0624, CHR Trenton Military JBA S9 = noise level. Operation seems irregular, so if it go totally silent for another few weeks, hard to tell immediately (Glenn Hauser, OK, WOR)

\*\* CANADA. 6754 USB, June 10 at 0632, Trenton Military not off the air, Split VOLMET at the moment, poor signal (Glenn Hauser, OK, WOR)

\*\* CHINA [and non]. 15800 & 15870, June 9 at 0435, JBA carriers, no doubt CNR1 jammers against SOH, as in EiBi.

Many other JBA or JBA carriers on 19mb after 0435 June 9, traceable to CNR, CRI or jamming: 15710, 15445, 15270, 15110.

15320, per Aoki, RTI at 0400 in Cantonese is jammed, but not 0430-0500 in Hakka.

15160, music at S8/S9, CRI Cantonese via Jinhua site (Glenn Hauser, OK, WOR)

\*\* CHINA. 15970, JBA carrier with flutter, and even weakers 16100 & 16160, June 11 at 2214 direct, i.e. jammers against Sound of Hope, as listed on these three in a row in Aoki, among countless others (Glenn Hauser, OK, WOR)

\*\* CUBA. 5025, June 9 at 0446 and still 0622, S9+30 of dead air from R. Rebelde. Something's always wrong at RadioCuba (Glenn Hauser, OK, WOR)

\*\* CUBA. 15230, June 9 at 1415, RHC song, supposed but better modulation than usual, S6/S8. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

\*\* CUBA. Hearing RHC's Spanish DX program 'En Contacto' is just about impossible on SW, but it's still being produced. I came across this link to audio of the June 10 edition:  
<https://elradioescucha.net/2025/06/10/en-contacto-radio-habana-cuba-208/>  
Very well done, including upcoming ham DXpedition info. I pay especial attention to the closing credits, namely guión = script by Luís Rafael Milán Roldán as in QRZ.com: ``C07GW Cuba flag Cuba, LUIS RAFAEL MILAN ROLDAN, CALLE UNION, EDIF TRANSPORTE AGROPECUARIO APTO 11, E/ REEVES Y CARR., CTAL, CAMAGUEY 70600 Cuba`` E/ probably means esquina, corner or intersection; CARR. = Highway, CTAL = Central? (Glenn Hauser, OK, WOR)

\*\* CUBA [non]. 9490, June 10 at 0143, R. República via RMI via FRANCE is VG S9+30 direct, no jamming audible (Glenn Hauser, OK, WOR)

\*\* EUROPE. Free Radio Service Holland publicized broadcast: At 1805 June 8, UTwente getting hard rock on 5841.006+ at S9+15 // 7700.121+ S8/S9; no 9300 but dead air carrier on 9304.902+ S8. At 1858, 5841 is VG recalling previous broadcast of June 8, 1986 (Glenn Hauser, OK, WOR)

\*\* EUROPE. Marconi R International supposed to be on at 1830-2030 June 8 on 7400, presumably Italy. At 1901 there is S8/9 of music into UTwente on 7399.747-, but ACI from much stronger 7404.973+ at S9/+10. Maybe that be R. Piepender in Netherlands as per EiBi on 7405, 24h irregular (Glenn Hauser, OK, WOR)

\*\* KOREA NORTH. 15180, June 9 at 0437, S9/+10 in the stilted English of VOK. 15105 weaker music also listed as VOK, French (Glenn Hauser, OK, WOR)

\*\* MADAGASCAR. 11650, June 9 at 0450 Arabish mentioning Darfur, S9+20, off by 0459 recheck. It's R. Dabanga per EiBi at 0430-0500; but preceding 0400-0430 R. Tamazuj on same is via Vatican (Glenn Hauser, OK, WOR)

\*\* MADAGASCAR. 12095, June 9 at 0453, BBC English discussing Nigeria, S9+20/30, this hour only via Mad. Other BBC langs from other sites Oman, Ascension, UAE, Vatican at 00-0330, 06-07, 14-1930 (Glenn Hauser, OK, WOR)

\*\* MADAGASCAR. 17530, June 9 at 0454, Chinese talk and song, S5/S8. This hour is WCB = MWV Mahajanga (Glenn Hauser, OK, WOR)

\*\* MARSHALL ISLANDS [non]. OKLAHOMA. '67 Bombs to Enid', a new film about the Marshallese community in Enid, is the subject of a segment in OETA's Oklahoma News Report, June 6, :23-:30 minutes into the hour. It premieres at the Dead Center Film Festival in OKC, Thursday June 12. ONR should soon be available here, after the previous May 30 edition:  
<https://www.oeta.tv/shows/oklahoma-news-report/>  
(Glenn Hauser, Enid OK, WOR)

\*\* NEW ZEALAND. 9700 // 11725, June 5 at 0600 tune-in direct, RNZP still on two at once contrary to own schedule, during BBC promos; 5+1 timesignal very late ending at 0602:22! compared to WWVH, and into BBC

news. Not clear where the TS originate, but totally wrong and should not have aired as if accurate. Must be quite a delay in getting BBCWS into RNZ. I think BBC news would have started at 0601 in real time (Glenn Hauser, OK, WORLD OF RADIO 2298)

\*\* NEW ZEALAND. 9700, June 6 at 0630, RNZP right after BBC relay, is running about two syllables behind // 11725, as I switch from one to the other on same receiver, why? Still not ``supposed`` to be on both during this hour per own sked. Reply to my previous report about BBC relay running late:

``I noticed that the BBCWS relay via RNZ today was off by a whopping 4 minutes 37 seconds approximately as my PC clock may be off by a second and the RNZ ToH pip was at 0600:01. After ToH pips and ID it was a crash into Newsday. Here's 5 minutes:  
[http://www.popshopradio.ca/20250606\\_0559\\_UT\\_9700\\_khz\\_New\\_Zealand\\_RNZ\\_BBCWS\\_Relay.mp4](http://www.popshopradio.ca/20250606_0559_UT_9700_khz_New_Zealand_RNZ_BBCWS_Relay.mp4)  
Tony Pavick, Hope BC`` (Glenn Hauser, OK, WOR)

\*\* NORTH AMERICA. 7475, June 10 at 0631, JBA signal presumed pirate Station YHWH, in another late run (Glenn Hauser, OK, WOR)

\*\* OKLAHOMA. 1390, June 11 at 0654 UT, dead air from KCRC Enid instead of stupidsporststalk; and at 0703, 1640 KZLS also dead air. The two are normally // but not exactly in sync (Glenn Hauser, Enid, WOR)

\*\* OKLAHOMA. 1670 kHz, June 11 at 2020 UT, for the record, Virtual DJ Radio is still going, always audible in the vicinity of junxion of US81 and 412 in Enid. Rock music with DJs naming themselves. Am I the only one anywhere hearing this webcaster transmitted on AM or FM? (Glenn Hauser, Enid, WOR)

\*\* OKLAHOMA. 88.3, June 6 at 1900 UT, KJIL ID, as its translator here in Enid has just moved from 88.7, presumably because of less CCI for it. But now we may forget about otherokies on 88.3 or DX; and may impede reception on 88.1 & 88.5. Will also have to run our RF feeders elsewhere than 88.3, maybe 88.7. WTFDA just notified FCC axion of 88.7 K204GU being replaced by 88.3 K202EU. KJIL is a gospel huxter on 90.1 in Copeland KS, with lots of translators. WTFDA FMDB shows 17 of them plus 6 non-translator relays not only in KS & OK but also in adjacent CO & TX across the OK Panhandle (Glenn Hauser, OK, WOR)

\*\* OKLAHOMA. We were up late June 7 past 0700 UT in case of tornado warnings; lots around but missing Enid. Made quick check of local FM dial for anomalies. Off the air: 95.7, 107.1. Wx info maybe from TV station: 89.7. Relaying NWS advisory at 0713: 106.3. Regular schedule with music or talk: 97.7, 100.9. By 1545, 95.7 & 107.1 on the air; maybe had power failure at site rather than damage (Glenn Hauser, Enid, WOR) More FM: See U S A

\*\* OKLAHOMA. Incredibly, this entry is still in the WTFDA FM Database as of June 10, 2025:

``K226BR KIMY 93.9 93.1 ENID OK USA 0.25 0.25 0.0 0.0 36-23-48  
97-52-38 SOUTHERN GOSPEL THE GOSPEL STATION 156415``

IT HAS BEEN GONE FOR OVER 12 YEARS, AS I ORIGINALLY NOTED ON May 27, 2013:

``93.1 K226BR, the one which provided straw-sucking-on-almost-empty-cup sounds, has been off for a few weeks now (Glenn Hauser, Enid, DX LISTENING DIGEST)``

I have occasionally mentioned its absence further once every year or two. I don't know whether it still be licensed, but the fact that it is LONG GONE ought to be noted. 73, (Glenn Hauser, OK, WOR)

The FCC seems to disagree:

[https://transition.fcc.gov/fcc-bin/fmq?](https://transition.fcc.gov/fcc-bin/fmq?call=k226br&filenumber=&state=&city=&freq=88.1&fre2=107.9&serv=&status=&facid=&asrn=&class=&list=0&ThisTab=Results+to+This+Page%2FTab&dist=&dlat2=&mlat2=&slat2=&NS=N&dlon2=&mlon2=&slon2=&EW=W&size=9)

[call=k226br&filenumber=&state=&city=&freq=88.1&fre2=107.9&serv=&status=&facid=&asrn=&class=&list=0&ThisTab=Results+to+This+Page%2FTab&dist=&dlat2=&mlat2=&slat2=&NS=N&dlon2=&mlon2=&slon2=&EW=W&size=9](https://transition.fcc.gov/fcc-bin/fmq?call=k226br&filenumber=&state=&city=&freq=88.1&fre2=107.9&serv=&status=&facid=&asrn=&class=&list=0&ThisTab=Results+to+This+Page%2FTab&dist=&dlat2=&mlat2=&slat2=&NS=N&dlon2=&mlon2=&slon2=&EW=W&size=9)

(Brian Beezley, K6STI, WTFDA FMDX-NA iog)

Despite what's {not} happening on-air, it looks like the FCC granted the renewal of its license on May 20, 2021. -- (Rick Lewis, *ibid.*)

``Added to the record for K226BR... ``This station noted OFF multiple times since 2013`` - That should help clarify things a little. Mike``  
Bugaj, WTFDA.

A little; altho I have obviously not monitored 93.1, 24/7 for 12+ years, I should be extremely surprised if anyone could prove it were *\*ever\** on the air. I wonder if its ex-primary KIMY 93.9 Watonga know of the situation (Glenn Hauser, Enid, WOR)

\*\* OKLAHOMA. MORE ENID FM UPDATES: This station still has not yet gone on the air, and the Part 15 OG&E downtown on 95.1 has remained off:  
``KOKJ-LP 95.1 ENID OK USA 0.1 0.1 29.0 29.0 36-24-13 97-52-40 788786``

This one has changed to relay 99.9 as below, no longer KLVV, several months ago as I reported at the time:

``K253BC KLVV 88.7 98.5 ENID OK USA 0.25 0.25 0.0 0.0 36-28-3897-58-14 CONTEMPORARY CHRISTIAN MY PRAISE FM 51936``

``KVBV-LP 99.9 ENID OK USA 0.075 0.0 34.0 0.0 36-25-54 97-50-16 RELIGIOUS TEACHING 194113``  
(Glenn Hauser, Enid, WOR)

\*\* OKLAHOMA. Bandscan in downtown Enid by USPS Box 1684, finds anomalies: 92.1 deadair in stereo; 101.7 deadair in mono, probably idle RF feeders in parked vehicles. On 96.3 extremely distorted mixture of two talk stations, never heard before. This is a block from the almost-vacant Broadway Tower hosting some FM stations, but I can't figure out a mixing formula and have only the caradio, no second receiver to search for matches.

Once further from downtown I am hearing on 92.1 as expected mono music and at 2029 UT, ``America's Best Country 92.1``; ad for an event June 28! for Independence Day in Bray, which is the next town a few miles east of Marlow, ad for Legacy Bank, and ``KFXI, Country 92``.

WTFDA FMDX shows ``KFXI Foxy 92 The Real Country Giant`` which may well also be correct, as any station does not necessarily have a certain single slogan engraved in stone and no others, but variations (Glenn Hauser, OK, WOR)

\*\* OKLAHOMA. 104.7, June 10 at 0504 UT, KQSN Ponca City, dead air in stereo again - only result of yet another fruitless Es FM DX bandscan prompted by some recent paths into OK on DXMAP. Maybe just for an automated ToH newshole? (Glenn Hauser, Enid, WOR)

\*\* OKLAHOMA. My last DTV set-top-box converter is back in service. More than a week ago there was a power glitch, after which it refused to turn back on -- or rather its eye did change from red to blue, but no output into the TV set. Finally after multiple reboots it's back, until the next power failure. So with somewhat tropo enhancement I do a mostly-UHF bandscan June 11 at 0337 UT. RF 28, virtual 34 from Tulsa market, KTPX-TV Okmulgee, is decoding; several BAD signals achieve at

least a little bar on RF: 36, 34, 31, 26, 22, 21, 20, 14. And Enid's only local TV, K17JN-D on RF 17 is OFF AGAIN, a.k.a. K17JI-D mis-ID. K17JN-D is licensed to Clarion Broadcasting Group, Inc., admittedly closely allied to 3ABN, and with three other low-power relays in OK.

I much prefer this Zenith receiver rather than DTV sets with built-in tuners which are user/DXer-unfriendly. Why the hell should I have to scan for signals rather than manually tune easily to each channel no matter temporarily? how weak?? Of course these were handed out free at the big DTV conversion; I got a few but should have got more, at least in reserve. Wonder if they still be available, preferably new/unused (Glenn Hauser, Enid, WOR)

\*\* SOUTH CAROLINA [non]. 9980, June 10 at 1423, TOMBS via WWCR still blasting S9+40. However, big news from Wavescan is that the BS ministry is about to quit SW; more on the next WS. This may have a drastic effect on most private US SW stations depending on that cash cow, if they can stay on the air at all, reducing other programming hours? But they will no longer be so embarrassed or subject to ridicule.

At 2214 direct, TOMBS on WTTW 9930, S9+20/30 and exactly 10 seconds later on WWCR 9980, S9+50; ``the end is near`` (Glenn Hauser, OK, WOR)

\*\* SPAIN. 17715 & 15500, Fri June 6 at 2209, token English from SNR equally VG direct, S9+10/20, and // weaker 15520, much weaker 15390. Interview about artificial reefs, 2219 that it's World Ocean Day being celebrated (Glenn Hauser, OK, WOR)

\*\* SPAIN. 15500, S9+20/30, 17715 S9+10/30, and much weaker 15520, weakest 15390, Mon June 9 at 2200, token English from SNR, missed preview but 2201 news leads with intercept boat with Greta Thunberg off Gaza - did they call her Mrs.?, unrest in L.A. (Glenn Hauser, OK, WOR)

\*\* SPAIN. 17715 & 15500, both S9+20/30 direct, 15520 S9+10/20 and 15390 only S9 = noise level, token English from SNR, Wed June 11 at 2200 joining for //, opening with Sinatra's `New York, New York`, intro feature about Madrid's yearly book fair, NY being the theme; interview with two women officials, as theme of fair is: NY. BTW, USA is the #2 Spanish-speaking country in the world, i.e. must be more than España with only 48.35 total megapeople, after #1 México 129.7. Right into this, skipping any news, who cares? (Glenn Hauser, OK, WOR)

\*\* TURKEY. 11785, June 6 at 2208, no signal direct from VOT English; nor on 11780, 11790 or accidental alternate 9875. But could it be under Brasil 11780? No, none of them heard either into UTwente at 2220. Erroneous at Emirler (Glenn Hauser, OK, WOR)

\*\* TURKEY. 11785.006-, June 7 at 2200, VOT English not off the air and not on wrong frequency, S9+40 into UTwente, opening with news about Gaza, never about Turkey, of course (Glenn Hauser, OK, WOR)

\*\* TURKEY [and non]. 9875.005, Sun June 8 at 2052, VOT English VG backwards into UTwente, ``always-by-your-side`` promo, music; 2057 ``with-you-every-hour`` promo and `Letterbox`. She says it's a very warm day and more to come; amid Festival of Sacrifice for 4 days thru Monday. 2058 mail: 1) Ricky Hein, South Dakota, heard there was a flood at Emirler, when will be back on 11785, 7275? Was some flooding around the city but not at the site, ops normal. Response from Emirler expects the ground to be OK (dry enough?) to support work on the A41 and a ``high-elevation`` antenna to be repaired in June. 2) -ovitch, Serbia. 3) Siddartha --, inquires about a ``day`` 17 May, dealing with

mobile phones? 4) he, or someone heard Turkish on 94.5 FM. 5) Canadian about postal strike. 6) Italy near Venice on 11660. 7) Walter --, Germany. 8) last one, Mohammed Breyel?, Malaysia, surname sure sounds like that of well-known DXer Timm Breyel, same person?? His family info on web does not indicate a Mohammed, but his wife has an Islamic-style name, so maybe a relation. ``Goodbye``, over by 2114. Did not get too many details as was also trying to listen to Marion's Attic #1000 on WBCQ stream from 2100. 11785.003 also not off the air in L'box at quick 2227 check (Glenn Hauser, OK, WOR)

\*\* TURKEY. 11785.007+, June 9 at 2200, VOT English not off the air but JBA direct vs noise level, timesignal and English s/on. At 2238 into UTwente when measured, S9+25/35 music; 2243 ``with-you-every-hour`` promo, music; 2248 ``always-by-your-side`` promo, music; 2254 s/off, IS first notes once to 2255\* (Glenn Hauser, OK, WOR)

\*\* TURKEY. 11785, June 10 at 2206 direct, and 2225 via UTwente, VOT English not on the air, nor on 11780, 11790, 9875. Something's always erroneous at Emirler (Glenn Hauser, OK, WOR)

\*\* TURKEY. 11785.006+, June 11 at 2157, VOT English not off the air but JBA direct S9/+10 with IS & ID. At 2226 into UTwente when measured, S9+30/40 music and 2230 some talk feature, music. 2246 multi-lingual ID filler reel, music. 2252 TRTVOTVorld promo. 2253 s/off as if 17620 at 1230, awry at Ankara, 2254 IS to almost 2256\* (Glenn Hauser, OK, WOR)

\*\* U S A [and non]. WORLD OF RADIO 2297 monitoring: confirmed UT Thursday June 5 at 0130 on WRMI 5010, S6/S9 backwards into Maryland remote; into Lima, Perú remote which supposedly covers 6.5-30 MHz, S8/9+10 but noisy on 5.01 MHz. Recheck Maryland at 0157 already in music fill, so WOR must have been cut off early, how early?

Also confirmed Thursday June 5 at 1630 on SW Radio, Germany, 6160.000+, S8/9 into UTwente but with self-imposed het. Lesley Illingworth recommends: ``Hi folks, Teltow, near Berlin works fine. 9+15dB

<http://meinsdr.ddns.net:8073/?f=6160.000amz8>

Cheers, Lesley (Bremerhaven, Germany)`` to which I tune immediately, DL7APJ, where it's S9+22 and clear, also in use by other 6160 listeners in Sweden, Germany.

WORLD OF RADIO 2298 contents: (Ascension), China and non, Europe, Greece, Guam, Indonesia, International Waters and non, Japan, Korea North & South, Luxembourg, México, Myanmar, Netherlands, New Zealand, Norway, Russia, Solomon Islands, Switzerland, Taiwan, Tanzania, Tibet, Turkey, UK and non, USA, Vietnam; propagation outlook - (country mentioned along with another almost not in order)

WOR 2298 available from 0103 UT Friday June 6

 (Glenn Hauser, OK, WOR)

\*\* U S A [and non]. WORLD OF RADIO 2298 monitoring: confirmed UT  
 Saturday June 7 at 0300 on WTW 5085, VG S9+10/15 into Maryland SDR,  
 following Ancient Word Radio and WTW IDs. Followed by a minute of

music 0329-0330\* without announcements.

Also confirmed Saturday June 7 at 1451 the 1430 on SW Radio, Germany, 6160.001+, S9+10/20 into DL7APJ remote; only S8/S9 with self-imposed het into UTwente.

Distracted by no FM DX, missed checking Sat June 7 at 1730 on SWR Germany, 3975 & 6160; anyone hear them?

Confirmed Saturday June 7 from 1933 on WA0RCR, 1860 AM, M0, S8 into K9VD Jerseyville IL SDR.

Confirmed Saturday June 7 at 1937 the 1930 on WRN North America stream.

NOT confirmed Sat June 7 at 1938 the 1930 on WRMI stream only: music instead. Yet WOR still appears on the WRMI System C skedgrid, 3:30 pm Sat.

Confirmed Saturday June 7 at 2010 the 2000 on WRN Europe stream.

1630 UT Thursday SW Radio, Germany 6160.  
(Glenn Hauser, OK, WOR)

\*\* U S A [and non]. WORLD OF RADIO 2298 monitoring: confirmed UT  
Tuesday June 10 at 0330 on WRMI 7780, S9/+10 into S Texas remote.

Also confirmed Tuesday June 10 at 1300 on WRMI 9955, S9/+10 direct.

Also confirmed Tuesday June 10 at 1400 on WRMI 9955, S9 but JBA direct.

Also confirmed Tuesday June 10 at 2000 on IRRS SW via AM Italia 1322.994+, S7.5 into UTwente. Next:

2330 UT Tuesday WRMI 9395 to NNW;  
2330 UT Tuesday SW Radio, Germany 3975;  
1930 UT Wednesday SW Radio, Germany 3975 & 6160;  
2100 UT Wednesday WBCQ 7490v to WSW;  
0130 UT Thursday WRMI 5010 to S;  
1630 UT Thursday SW Radio, Germany 6160.  
(Glenn Hauser, OK, WOR)

\*\* U S A [and non]. WORLD OF RADIO 2298 monitoring: confirmed Tuesday June 10 at 2330 on WRMI 9395, S9+30 into Georgia SDR.

Also confirmed Tuesday June 10 from 2331 on SW Radio, Germany, 3975.002+, S9+10 into UTwente.

Also confirmed Wednesday June 11 from 1931 on SW Radio, Germany 6160.001+ S9/+10 and 3975.002+ S9+5/10 into UTwente.

Also confirmed Wednesday June 11 at 2100 on WBCQ 7490 -77 Hz = 7489.923, S8 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;  
1630 UT Thursday SW Radio, Germany 6160.

Financial support appreciated, by MO or check on a US bank to:  
Glenn Hauser, P O Box 1684, Enid OK 73702 USA

Or via PayPal, not necessarily in US funds, to:  
woradio at yahoo.com (Glenn Hauser, OK, WOR)

\*\* U S A. WTTW, George McClintock informs me June 6 that since 5085 is operating well, WORLD OF RADIO should appear UT Saturday June 7 at 0300. and 5085 is in fact on at 0133 check June 7. The corresponding day frequency 9475 still won't work: needs some mechanical repair to the tuning mechanism, a new chain. Trying to convince TOMBS for 24h operation on the other WTTW, 9930/5920, especially since WRMI is so direxional that they don't cover the west coast. But TOM people do not understand how SW worx (Glenn Hauser, OK, WOR)

\*\* U S A. Pre-`AAAWWW` chex of WBCQs, June 6 at 2350 into Maryland SDR: 3265 off, 5130 off, 6160 off; 7490 -77 Hz = 7489.923 S7/S9 with FKB; 9330 S9/+12 with WLCR Portuguese. By 2353, 5130 -85 Hz = 5129.915 carrier is on, only S4/S7, and from 2355 IS & ID. FKB's one-minute? warning tone, as he is apparently live, at 2359 cuts him off for ID etc in only half a minute!

UT Sat June 7 at 0000, on 7490-, WTO theme, one word, ``ready``. 0001 talkover about ``peace, love, and understanding``, ``we keep throwing those wet snowballs into hell...`` Free speech, etc. 0003 says simulcasting, live; it's a hot and puffy? day in Deland of Fla, humidity 90% and temp 90+. Angela hates air conditioning, turns it off after Allan turns it on in the house. Has also been hot in Maine, but always cools off at night. WBCQ is not in debt; credit card advice; 0012 ``the butterfly effect``. 0024 contact info, says on 7490 & 9330, but not 5130 which is carrying `Intelligence Report` since 6160 is out of order. So I switch to 9330 which is stronger than 7490. 0025 datestamp as 6 of June 2025; a couple songs including Carly Simon. At around 0035 recheck, 9330 is back in World's Last Chance! already, in English. So I resume 7490-. 0040 rails against ``nitwit Biden`` and

all the Moonbats/Communist/Democrats who are responsible for all that's wrong today but keep getting re-elected, he cannot understand why. Also despises southern Maine and the Democrat governor for the whole state. 0052 items from Free Radio Weekly, but it's last week's issue. He doesn't understand what I meant by ``five pirates at once``. 0059 chopped off for canned ID, and an ad, presumably from the Hal Turner feed, and then he's bragging about his coverage via WWCR (Glenn Hauser, OK, WOR)

\*\* U S A. 9455, June 9 at 0615, WRMI-11 is still on with SMTV starting with yelling demonstrators, S9+40/50, stronger than // WRMI-6 9395 only S9+20/30, normally its only. 9455 supposedly off after 0400 (Glenn Hauser, OK, WOR)

\*\* U S A. 9455, June 10 at 0142, this WRMI-11 is OFF. There are lots of contradixions in skedgrid especially about 9455, despite new ``effective`` date of June 10 already! (Glenn Hauser, OK, WOR)

\*\* U S A. 9455, June 10 at 0630, this WRMI is OFF as scheduled, contrary to 24 hours ago when it was ON (Glenn Hauser, OK, WOR)

\*\* U S A. 7780, June 11 at 0632, JBA signal, sounds like TOMBS, probably like slightly stronger 7730. WRMI 7780 is normally very silent long before this hour. But the current skedgrid does show WRMI-11 7780 from 00 to 11 including Overcomer block 06-08. With TOMBS allegedly about to quit radio broadcasts, it would be interesting to calculate the total number of weekly transmitter-hours on WRMI, but DOW, especially weekend variations difficultize that (Glenn Hauser, OK, WOR) See also SOUTH CAROLINA [non]!!

\*\* U S A. 12050, June 9 at 0452, M&W Spanish discussion, S9+10/20, as WEWN is now registered until 0600 (Glenn Hauser, OK, WOR)

\*\* U S A. 780, June 11 at 0639 UT, just before very reliable `StarDate` time 0640 on WBBM Chicago, weather forecast for low of 33, high of 90. 33?? in June, almost summer? NWS shows the June 11 low at Midway was axually 64.9 F at 0853 & 1053 UT (Glenn Hauser, OK, WOR)

\*\* U S A. 1130 kHz, June 9 at 0442, still 0457+, S9+10 of deadair vs KWKH sportalk, best on N/S antenna, no doubt the perpetually cheating KLEY Wellington KS, i.e. 250 watt day power instead of one watt at night. Back to normal music mod circa 1415 check (Glenn Hauser, OK, WOR)

\*\* U S A. Sporadic E MUF circa 98 MHz, nexus central Illinois and some paths almost here on DXMAP, so I check the caradio June 7 at 1735+ UT. Several complete bandscans but no DX heard. Spoiler fringe stations tend to fade in and out like ionospheric skip, e.g. 88.1 a strong `This American Life` on public radio, 1757 UT battling with KMSI Moore Oasis Network, but JBA ID by 1759 as KGOU, i.e. KWOU Woodward OK. Some Wichita signals above normal, like 98.7, 95.1. All I can do is note some anomalies, such as 94.3 at 1806, JBM with ``bubbly`` talk, likely the Bott mono in KS, yes, finally resumes normal modulation at 1807, and // 95.1 in OK.

91.5, gospel/praise rock, June 7 at 1737 UT and later, NO big hum. Steady signal, and no ToH ID caught (or sent?), circa 1800 but surely KSNS Medicine Lodge KS, which had been hummy for weeks - so no longer a clue for DXers.

101.5, at 1740 UT, Spanish but with English words such as `Countdown` and adstring, Heritage for the Blind, 800-314-5027; Aerolíneas Low-Cost, 800-261-5094 -- that is apparently an aggregator, not name of one airline. Finally ID as `La Mexicana, 93.9 y 101.5`, i.e. KSMM Liberal KS, 100/100 kW, relay of KSSA 105.9 but // KZRD 93.9 per WTFDA

FM DB (Glenn Hauser, OK, WOR)

UNIDENTIFIED [and non]. This is more a note-to-self, admittedly. LW bandscan June 6 from 0612 UT finds the local noise level slightly diminished, so MCW beacon carriers audible on: 251, 255, 332, 395, 404 kHz. I know what they must be from TX, OK, KS. And JB strong enough to copy calls from: 293 FBY Fairbury NE, and 407 HRU Herington KS – but only when tuned to 405 USB instead. Both 25 watts (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1309.68, June 9 at 0441, new JBA carrier hetting 1310.00 stations. MWoffsets has one good hit: 1309.676, Voz de la Patria Celestial, Barranquilla, Colombia, as of 2024-02-03 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1549.82, June 9 at 0440, that carrier hetting 1550.00 stations easily audible; if not XEREL, what? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5129.9, Tue June 10 at 0144, JBA signal direct, smax of WBCQ on usual offset but not sked except on UT Sat, Sun, Mon. Should have tried remote before 0220 for more precise measurement (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9340.43v, June 6 at 0632, S5/S7 of open carrier, seemingly related to 9330.00 WBCQ/WLCR, which is S9+15 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9340.43, June 9 at 0617, JBA carrier which seems to accompany 9330 WBCQ/WLCR, but is it spur out of same transmitter? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11485–11538 approx., June 11 at 2208, wideband multi-tone, multi-carriers beating against each other, S9+20; like often heard circa 17450 and some other places, but not before in this range which could QRM broadcasters. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15060–15082, June 9 at 2208, OTH radar clickery S9, lower than usual range above 15100, but less likely to bother any broadcaster down here (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15134–15157 approx., June 6 at 2212, OTH radar clickery. No broadcasters audible in that range (Glenn Hauser, OK, WOR)

UNIDENTIFIED. June 6 at 0643+, bandscan encounters numerous JBA signals on the 16m band as we approach the Shortest Night. I match them with EiBi listings, but no firm IDs:

17520: CRI Italian via Kashgar

17650: CRI Mandarin via Kashgar to Europe

17710: CRI English via Kashgar to SE Asia

17720: CRI German via Kashgar

17740: CRI Mandarin via Xian to SE Asia

17772: DRMish noise: 17770 CNR1 DRM Mandarin from Dongfang, Hainan

17840: CRI Mandarin via Beijing to Siberia

17850: RFI French to C Africa

17865: CRI French via Kashgar to Europe

18200: SOH Taiwan, but probably CNR jammer

(Glenn Hauser, OK, WOR)

## TIPS FOR RATIONAL LIVING

### The Rule of Idiots

In the last days of all empires, the idiots take over. They mirror the

collective stupidity of a civilization that has detached itself from reality.

Chris Hedges Jun 06, 2025
